

## Clark Forklift

Performing globally, there are currently 350,000 Clark forklifts and lift vehicles in operation, with in excess of 250,000 of those in service in North America. Clark has five major lines of lift trucks across the world, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 individual items intended for 20 exclusive brands of lift trucks and automated equipment. Your regional Clark Dealer is your total source for availability of all your parts requirements offered by Clark Totalift.

Clark has a exceptional Parts Supply team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a very impressive global support network. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the materials handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a customary feature on every forklift.

Clark's relentless mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first forklift maker across the world to be certified with the globally accepted quality standard ISO 9001 for all of their production facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental restrictions, thus placing them in a dominant industry position.

### Lean Production

Clark has selected the very economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and use of resources. This structure was established to acknowledge the most efficient approaches of manufacturing facility management and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

### Engineering

Clark's product engineers and suppliers join together to develop the effectiveness and excellence of their products while minimizing costs. The new value engineering agenda combines progressive product improvement and provides superior consumer support and service within the industry.
